

Child-Friendly E-Safety Policy

What is E-Safety?

E-safety is all about how we can stay safe on online and other electronic devices including mobile phones.

The internet is good because...

- It can be used to talk to friends and family.
- You can play enjoyable games on it.
- You can find out lots of facts and learn lots of new things.
- It can help you with school work.
- You can watch videos and listen to music

How does Hatfield Woodhouse Primary School keep me safe online?

- We have anti-virus programs and firewalls on computers to keep viruses away from school computers and to stop us going on websites which might not be appropriate or safe.
- Teachers talk to us about how to stay safe on all electronic devices.
- Teachers always tell us which websites to go on and make sure they are safe.
- • We keep access to ipads and laptops secure.

What should I do if people are mean to me online?

- Always tell a parent, carer, teacher or responsible adult straight away.
- Keep the messages to show the responsible adult as proof.

- Block and report anyone that is being unkind to you.
- Try to ignore the person.

Who can I talk to if I have any worries about the internet?

- Teachers
- Parents / carers
- Friends
- CEOP

Some of the dangers online are...

- Bad language – we might see or hear swearing online.
- Content – some of the things online are not suitable for children.
- Viruses – some websites and E-mails might have bugs that can harm your computer.
- Cyber bullying – some people could send nasty texts, E-mails and pictures.
- STRANGER DANGER – some strangers might lie about who they are and how old they are and they might try to make friends with you.

Our internet rules:

- We do not post any personal information online.
- We only go on websites our teacher has told us about.
- We never speak to anyone that we don't know online.

Remember to stay SMART Safe –

Stay safe online and don't give out any personal information.

Meet – Never meet up with strangers that have tried to speak to you online.

Accepting – Only accept messages and friend requests from people that you know.

Reliable – Don't believe everything you see on the internet. People may lie about who they are!

Tell – Make sure you tell a parent, teacher or a trusted adult if something online has made you feel upset, uncomfortable or worried.
